Direct and reported speech powerpoint

Your Excellency the Secretary General, Madam President, honorable delegates,

As one of the two successor states of Czechoslovakia, the Czech Republic was unanimously admitted as a full member of the UN at the resumed 47th session of the UN General Assembly on January 19, 1993.

Since 1993, the participation of the Czech Republic in the work of the UN has been very active, including in particular its seat of a non-permanent member of the UN Security Council in the 1994-1995 term, its Presidency of the 57th session of the UN General Assembly in 2002-2003 and its activities in the Economic and Social Council.

Within its work in the field of human rights protection in the Commission on Human rights and its successor the Human Rights Council, the Czech Republic has participated in the drafting of the texts of a number of thematic and country-oriented resolutions concerning human rights protection.

The Czech Republic attaches a great importance to dealing with global economic and social problems such as, international economic issues, social progress and development, observance of human rights and fundamental freedoms or insufficient health and living conditions.

Czech Republic regards Model United Nations as a unique organ that should be able to help to coordinate the complex peacebuilding efforts in the countries on its agenda, to attract the attention of the world or -at least- national community and to marshal additional resources.

Thank you.

I yield the floor to the President.

TIPS

- Make sure to use your hands to tell your story but remember to be cautious of using your hands too much as this can alienate the audience.
- To memorize your speech practice by saying it to the mirror.
- While researching your audience, learn what motivates them, and continue to motivate them with the same ideas and values that they already hold dear.
- Make sure you don't take too long that might get everyone else bored.
- Try to cite sources for statistics and use credible non biased sources.
- Notes should only be used to keep you on track, if you don't know the speech that you wrote, you shouldn't be giving the speech.
- Remember not to read your speech, tell it. The difference between reading and telling is that telling appears more interactive and personal to the audience, this is key because it helps to get them on your side.
