Home » Samsung » How to activate and use GPS on the Samsung Galaxy S4 Mini All the latest news on the Samsung Galaxy S4 Mini in our articles. The experts are on your side. How to enable and use GPS on Samsung Galaxy S4 Mini Today, traveling in an unfamiliar city without GPS has become almost unthinkable, especially not to get lost. GPS in cars is developing rapidly, so many French families have it. However, not everyone can afford it. However, in recent years and with the development of smartphone performance, manufacturers have decided to integrate the GPS function. It was a real revolution in the use of devices. We therefore explain how to activate the GPS on the Samsung Galaxy S4 Mini, how to use it and finally how to download the GPS from the Google Play Store. Before using GPS on your Samsung Galaxy S4 Mini, make sure you have Google Maps installed on your Samsung Galaxy S4 Mini. Just search for it on your Samsung Galaxy S4 Mini. If it's not available on your device, go to the Google Play Store and type "Google Maps" in the search box to install it. If you have found the application or have just installed it on your Samsung Galaxy S4 Mini, first go to "Settings" and then to the "Personal" section. Here you will find the "Location" or "Location" button and simply click on it to activate the location of your Samsung Galaxy S4 Mini. Then activate the "High accuracy" mode, which allows you to use GPS, mobile networks and Wi-Fi to locate yourself with your Samsung Galaxy S4 Mini. Also, you need to turn on Wi-Fi or mobile networks, because without them, GPS will not work. Once done, you can enable GPS on your Samsung Galaxy S4 Mini. If you have done everything correctly as described in the previous paragraph, we will now explain how to use GPS on your Samsung Galaxy S4 Mini. First, open the "Google Maps" app. Then enter the name of the city or the specific address where you want to go with your Samsung Galaxy S4 Mini and press "Search". when you foundThe target, press the address of the city you are looking for, or in the name of usually on the screen below. From there, Google maps show you the route, the target time, the number of miles and the means of transportation you can choose. Various options are available as transportation vehicles: car, bike, foot or public transport. After selecting the dishes, navigate. The GPs of your Samsung Galaxy S4 Mini start and you need to follow the displayed route. It is possible to download specialized applications in GPS navigation. First go to the Google Play store where you are looking for the GPS search bar. You will find a wide range of GPS applications in search results. We warn you! Read the notes and user ratings of the application you are interested in. CONCLUSION: Your Samsung Galaxy S4 Mini is a useful and powerful GPS, the development of GPs on smartphones has proved that it is a very useful idea that makes many people disappear if GPS does not disappear. The GPs, built on the Samsung Galaxy S4 Mini, can be very practical, faster and more powerful than traditional GPs, because the cards are higher . Therefore, avoid using the GPs of your Samsung Galaxy S4 Mini at a longer distance or charging it with a hunting lighter to avoid reaching your target with a discharged device. If there is any problem, do not hesitate to consult a specialist who will help you use GPS in the Samsung Galaxy S4 Mini. All expert teams are available if you need more information. It's a fast device with a price to watch. In addition, the S5 Mini is a good 8MP camera, while users can make video calls using the 1.9MP front camera. The 8GB internal memory can be expanded to 64GB using a micro SD card. Want to know more about the Galaxy S4 Mini? Then keep reading on this page! In short, Galaxy S4 mini, Galaxy S4 Mini has been on the market since 2013. And by the way, it has become much cheaper. But it's still a powerful device with a thin and light body. The main features of the smartphone are: 4.3 -inch Super AMOLED display 1.7 GHz dual -core processor, 8 GB memory (expandable) 8 megapixel front camera, rear 1.9 megapixel battery -more "compact and light" than Galaxy S4 mini "Galaxy" S4 mini is extremely light, beautiful and compact, so it is perfect for many different users. The device has a 4.3 inch display that looks sharp thanks to 960 x 540 pixels. Memory. Enough to run Android and the latest games and applications. A memory card There is a total storage of 8 GB, expandable with the help of 4G. There is a standard 4G support, you can enjoy a fast mobile internet anywhere with the S4 Mini. The Netherlands and Belgium. Finally, there are two cameras ordinary HD photos, selfies and videos. Continue reading? Check out our -depth Galaxy S4 mini review. Conclusion Samsung Ga Laxy S4 Mini Review Galaxy S4 Mini is a great device in a practical form. The specifications do it all; The device fits perfectly in your hand and is beautiful and light; Sams ung Touchwiz is still ubiquitous, but slightly less annoying with points. The camera does what it is for, and the screen resolution is great. Very few clouds are visible. A few of the clouds we see are due to the price of the Samsung Galaxy S4 Mini. For this you have to pay about 400 euros, at this price with very nice models from other manufacturers. Of course, Samsung's biggest competitor is the HTC One Mini, a smaller HTC One version that will be available from September. Have.
