## Games you must have on your phone

What are good games to play on your phone. What games to play on your phone. What games to play on mobile.

Photo Courtesy: Pooch Selfie / Amazon What do they think about next? It certainly seems to be very little left that technology cannot do, especially when it comes to smartphones. If you told someone a century ago that their great great-grandparents would walk with portable devices that could answer any questions, provide a precise navigation, show endless photos of hilarious cats [À ç à,](#) ~ "Oh and make phone calls [À ç à,](#) ~ "They certainly would have called you crazy. Well, it seems "crazy" is here to stay and improve only! Take a look at some of the best Genius gadgets invented to transform our smartphones into Total Game Changer. As far as we all love our dogs, making our understand that the concept of a selfie is not an easy task. If every photo you've ever caught your fur-child turned out to be a big fur blur, then rested so that the right technological help has finally arrived at the rescue. Courtesy photo: Pooch Selfie / Amazon The accessory to Selfie Pooch is a small Squeaky ball device that clips comfortably on top of the phone. Now you can keep your dog's attention long enough to take the perfect photo - without having to recruit a stranger to make doggie noises cute behind the camera. Losing the keys is the worst absolute. If you've ever tried to leave your home, just to find out that your keys have gone to the Dogue [À ç à,](#) ~ "how do they do it? [À ç à,](#) ~" Then understand the pain. Now you can stop. The answer to never lose the keys, the wallet or the remote control is as simple as a look at the phone. Photo Cortesy: Gadgets for tiles / Amazon as the tiles are equipped with small cards that you can stick to any object that has a tendency to get lost. So the next time your keychain is missing, you can locate it quickly by activating a sound or using a GPS map on the phone. If you love to take pictures but I'm not able to buy an expensive camera, then consider taking your smartphone camera at a completely new level. Photographic lenses like those from Xenvo are available in universal format, clip-on that work with single cell phones than double lens. Photo of courtesy: Xenvo / Amazon takes only the goal on your phone and you are ready to capture wide-angle shots, close-up and all the rest (depending on the goal) in a particular detail. Whether you're trying to take more artistic shots or want to make your best phone photos, a good series of lenses is a great way to start. Ok, so any thermometer can tell you if your child has a fever, but intelligent thermometers like Kinsa take a step forward. This recommended podiatrician The device connects to an app on the phone and then proceeds to offer you all kinds of useful information. Photo of courtesy: Kinsa / Amazon provides accurate temperature readings in 8 seconds or not and provide you with a personalized guide based on its discoveries. It takes into account your age, fever and symptoms to determine the suggestions for the management of the doctor, which doctors to take and more. Will you ever lose your beautiful old days when the headline was the king? Now you can take a trip along the Memory Lane giving your smartphone an old school makeover. Just connect the old-style phone receiver into your smartphone, and you're ready to chat like you did again in the old days. Photo of courtesy: Technology Opis / Amazon Assured Assured, the retro style laptop is not purely a new gimmick. Nice how smartphones are, they also produce a great quantity of radiation we regularly regularly next to our faces. This fun receiver reduces exposure to 99% radiation, so you can enjoy those long speeches without If you ever wanted to be able to tune the world, your day has arrived. Now various types of sleeping headphones are equipped with cute and welcoming speakers who play everything you want on your phone, just like a stereo system. This particular model from Jarvania is available in a smart belt style that can be used in two different ways. Photo of courtesy: Jarvania / Amazon if you are trying to fall So you can use it as a combined eye mask and the headphone to lock luminous and disruptive noises. You can also wear it when you're working simply by wearing it on your forehead above your eyes. The days turned out when you had to move on your barbecue until it was done. This Bluetooth digital thermometer is equipped with two heat-resistant heats that monitor the meat while cooking and sends updates in real time directly to the phone. Photo of courtesy: Chugod / Amazon now you can wander up to 164 feet from the grid and still checking how things go with a look at the phone. Intelligent app control comes with preset temperatures for 11 meat types, but it is also possible to customize temperatures to adapt to your personal flavors. Sick to have his arm in every selfie shot? For less than \$ 20, you can take pictures of photos easier - without even holding the phone. This torque remote camera shutter with phone or tablet via Bluetooth technology and allows you to click the capture button from a maximum of 30 feet away. Photo of courtesy: Camkix / Amazon has two comfortable buttons, so you can choose to take pictures or videos from afar. The device is available in both iPhone and Androids versions, then make sure you check the correct model check before order. Having your favorite songs stored on your phone is the best! An attempt to listen to them at the top volume of your phone, however, can be more than a bit disappointing. That's why it's nice to have a portable speaker that allows you to enjoy your favorite tracks in a volume of cleaning of the home and / or dance. Photo Cortesy: Cambridge Soundworks / Amazon The Ontz 3 corner provides not only a large volume but also a Bluetooth range up to 100 feet. You can whip it for a party or swimming pool, tell which playlist want to hear and then relax while doing the rest. You may have hundreds of photos stored on your smartphone, but to now and then, it's still nice to print your favorites for framing. These days, printing images on site is a breeze if you have a wireless mini photographic printer. Photo of courtesy: Polaroid / Amazon all you have to do is connect the printer to the phone via Wi-Fi, and you can watch your photos transform from digital to physical copies in no time. Printers like Polaroid zip do not even require ink, as they operate using zero ink technology that still produces a fantastic color. Bizarre but true! Did you know that the average smartphone is up to 18 times more dirty than a bathroom? It makes sense when you think about it. We collect germs in the bathroom, the kitchen and in a lot of public places and then pass them along our phones. But on the mobile sheets, how often do you clean them? Photo of courtesy: Phonesoap / Amazon well, someone outside was intelligent [À ç à,](#) ~ "or perhaps German - and invented a gadget that can transform the phone into an area without germs. Phonesap both accusations and sanizza il your phone all in one, killing 99.99% of germs that linger on the surface of the phone. Sometimes it seems that there is an app about it for everything. Although it may not be one yet to keep you cool on a hot summer day , there is a nifty smartphone gadget that can. Many companies now make these little fans that you can connect directly into your smartphone to help you cool quickly. Photo courtesy: so much fans / amazon if you have an iPhone or a Android, there is a fan outside that you are sure to work for you. Many of them are also available in multiple packaging, so you can store one in your car, bags or any other area where it is likely that need a bre Refreshing duty. Believe or not, it's You can transform the phone into a powerful self-defense weapon. The yellow jacket is a phone case other than any other. Not only does it reload your phone, but it also transforms it into one of the strongest stunned guns on the market. Photo of courtesy: Yellow / Amazon jacket if you are ever in a shaded part of the city or engaged in a With a threatening person, so you can flip the security switch and know that the phone has your back. The double activation of the trigger guarantees that you will never have zap anyone or nothing unless you intend to do it. If you are looking to enjoy the [À ç](#)
