Baroid product data sheets

Data Briefs are statistical publications that provide information about current public health topics. Each report takes a complex data subject and summarizes it in text and graphics that provide readers with easily comprehensible information in a compact publication (PDF) and webpage. This list of all Data Briefs that have been released to date is presented in an interactive, searchable, and sortable data tables format. Data Tables Grouping Controls All Years 2021 2020 2019 2018 2017 2016 2015 2014 2013 2012 2011 2010 2009 2008 2007 All Months January February March April May June July August September October November December All Authors Abma, Joyce Adams, Patricia F.
