Easy to use and intuitive design Organization of the playlist by channels and vods, replay channels, EPG timeline... Search channels and vods. Contains 2 integrated players and possibility to use VLC and MX Player as external player. EPG (TV guide) and automatic logos for TV channels Informations about Vods: Synopsis, Posters from movies and series, notes... List of favorites Information about your subscription: Subscription status, expiration date...etc Works without m3u (Thanks to the Xtream-Codes API) IPTV Smarters and iptv smarter Pro/Player are available at: Google Play Store and compatible with: Android Box, Smartphones, Tablets, Android TV... No need to lose your head with the link or m3u file, this application only works with username, password and a server URL that will be communicated to you by Email when selecting this application with your order, if you don't do not have a subscription yet, place your order here. If you already have a m3u link, no worries, it is possible to pull this info from your link as follows: The Username, Password and the server URL are included in your m3u link provided when ordering, Example of m3u link: /get.php?username=5799&password=abCD123&type=m3u&output=ts In the case of m3u link above, the connection details to the server are as follows: Any name: Techno iptv Username: 5799 Password: abCD123 Server URL: IPTV Smarters is an Application which released based on Xtream Codes in beginning, But M3u link and local file list updated in last updates too. Friendly and easy GUI is most important point in this app. This app is available for Android, iOS and Smart TVs (WebOS, Tizen, Android). You can download IPTV smarter from: Android play store: Download IPTV smarter APK via direct link: install-iptv.com/iptvsmarters App store: Removed by Apple at this moment Install IPTV on IPTV smarters Choose your list type Open the application and you need choose which method you want add list. We recommend use Xtream Codes API which supported from more than 95% of IPTV providers. Enter Xtream connection details Choose a name for your list (it can be any name) in the first field and Xtream codes USERNAME, PASSWORD and SERVER URL which provided by your IPTV service provider then press ADD USER you are good to go 1 - SMARTPHONE / FIRE STICK / BOX ANDROID / ANDROID TV Method 1 : IPTV SMARTERS PRO Step 1: Start by downloading IPTV Smarters Pro app from HERE Step 2: Open the app once downloaded. Step 3: In this step, in the first box, select any name you want. On the second and third box, enter the "Username" and the "Password" and On the 4th box enter the URL (All these credentials would be sent in your Email Inbox) Step 4: Now Click on "ADD USER" to proceed to the next section. Step 5: Now click on "Live TV" icon as depicted in the image via a red arrow. Step 6: Now you must select the channel group that you want to watch and proceed to the next section. Step 7: Now you must click on the channel name and then double click on the small screen to turn into full screen as the final step. Method 2 : Our Application Step 1: Start by downloading the official app of our server from HERE Step 2: Open the app once downloaded. Step 3: In this step, in the first box, select any name you want. On the second and third box, enter the "Username" and the "Password" (All these credentials would be sent in your Email Inbox) 2 - SMART TV Method 1 : Smart IPTV Step 1: Start by downloading the Smart IPTV App from the store.Please note: For the beginning, the App offers you a 7-day free trial. After the App expires, you can obtain it again via in-App microtransaction or visit the website and purchasing the license. Step 2: After opening the application and you will see your TV Mac address. Write it down to prepare for the next step. Step 3: Open the playlist uploader web page by opening this URL your TV Mac address and the M3U URL you received from your IPTV provider, mark "Keep Online" and press "Add Link". Step 4: After uploading your playlist successfully, restart the Net IPTV application and the channels will be displayed. Method 2 : Net IPTV Step 1: Start by downloading the Net IPTV App from the store.Please note: For the beginning, the App offers you a 7-day free trial. After the App expires, you can obtain it again via in-App microtransaction or visit the website and purchasing the license. Step 2: After opening the application and you will see your TV Mac address. Write it down to prepare for the next step. Step 3: Open the playlist uploader web page by opening this URL your TV Mac address and click on Add Playlist, then enter the M3U URL you received from your IPTV provider, mark "Keep Online" and press "Add Link". Step 4: After uploading your playlist successfully, restart the Net IPTV application and the channels will be displayed. 3 - MAG Device Method : Step 1: Send us your MAC Address via email : roths.iptv@gmail.com by mentioning that you're using MAG Step 2: We will give you a portal link to connect to IPTV 4 - IPHONE / IPAD / APPLE TV Method 1 : IPTV SMARTERS PRO Step 1: Start by downloading IPTV Smarters Pro app from HERE Step 2: Open the app once downloaded. Step 3: In this step, in the first box, select any name you want. On the second and third box, enter the "Username" and the "Password" and On the 4th box enter the URL (All these credentials would be sent in your Email Inbox) Step 4: Now Click on "ADD USER" to proceed to the next section. Step 5: Now click on "Live TV" icon as depicted in the image via a red arrow. Step 6: Now you must select the channel group that you want to watch and proceed to the next section. Step 7: Now you must click on the channel name and then double click on the small screen to turn into full screen as the final step. Method 2 : Our Application Step 1: Start by downloading the GSE IPTV App from App Store and on the top left corner click on the 3 lines to open the main menu. Step 2: Go to the "Xtream Codes API" and select to proceed to the next section. Step 3: Click the "+" at the top right corner of your screen. Step 4: Now you need to fill in the entries as instructed below: Playlist name: You can place any name.Server name: Here you must apply the server name provided by your IPTV distributor.Username: Enter the username provided by your IPTV distributor.Password: Enter the password provided by your IPTV distributor. Where to find the username, password, and server name? You can find all these mentioned details inside your M3U URL. What is M3U? 5 - WINDOWS / MAC COMPUTER Method 1 : IPTV SMARTERS PRO Step 1: Start by downloading IPTV Smarters Pro app from HERE Step 2: Open the app once downloaded. Step 3: In this step, in the first box, select any name you want. On the second and third box, enter the "Username" and the "Password" and On the 4th box enter the URL (All these credentials would be sent in your Email Inbox) Step 4: Now Click on "ADD USER" to proceed to the next section. Step 5: Now click on "Live TV" icon as depicted in the image via a red arrow. Step 6: Now you must select the channel group that you want to watch and proceed to the next section. Step 7: Now you must click on the channel name and then double click on the small screen to turn into full screen as the final step. Method 2 : VLC PLAYER Step 1: Download VLC media player from and follow the steps and Install VLC Media Player. When the application is opened press on "Media". Step 2: Click on the "Open network stream". Step 3: Enter the M3U URL provided by your IPTV distributor and press "Enter". Step 4: Now your playlist is loaded, Press the combination between CTRL+L to bring up the playlist. Here you can choose or search for your desired channel and start watching Live TV...
