One of its most recent additions was the ability for BBM users to call each other. The function works as you would expect and tends to work well for most people. It may not be the best idea to switch to BBM, but if you already use it or like it already, then there is no real reason to let it watch other video calls apps. Hangouts [Price: Free] The highlights are Google's response to Apple Facetime and it is one of the most popular video call apps on Android. Findings are mainly a messaging service but you can also use it to send SMS messages. In addition, you can also make voice and video calls as you wish. Video calls can have up to ten participants and also operate an integral multiplatform so that you can call someone on your phone and can answer to your computer. It is also totally free and pre-installed on many Android devices. ICQ [Price: FREE with in-app purchases] ICQ is around for a very long time. So long, in fact, that it was a competitor of AOL Instant Messenger before being purchased from AOL at the end of the 1990s. These days, ICQ is still one of the most solid video call apps that also has an integrated messaging service. Even the video call works quite well and the messaging side of things is also good. It boasts being able to work on 3G web connections and is also provided with a password block for security. JUSTALK [PRICE: FREEDOM] JUSTALK is one of the few video call apps that focuses on the video call before and other secondary features. Yeah. and use your Facebook account to help you quickly connect to your friends and family. Some of the other features include group chat, free phone calls on data, and also ilg noc sitarG :ozzerP[ognAT .euqnuvo etnemacitarp olrasu ioup idniuq ,amrofattaipitum ehcna 'E .tahc oediv id Âtilanoiznuf el noc ilacov etamaihc e etneced sms id oizivres nu id otatod Â.erup inna eud imitlu ilged osroc len vitisop itnemaibmac id occas nu otibus ah enoizacilppaÂL.onoub aznatsabba "Âehc li ,enosrep id inoilim 052 id itnetu id esab anu atnaV .diordnA ppa nu ah ,ebberettepsa is ic emoc e irouf Âl atamaihcoediv ni iton 'Âip imon i artâ E .epykS onocsonoc itut ,etnemlarutaN JsitarG :ozzerP[epykS.arocna ortla otлом e oppur id tahc ,krown laicos id Âtilanoiznuf ,aenatnatsi acitsiggassem iarretto ,otseuq a emeisnI .eralullec li o retupmoc li odnazzilitu etamaihc erautteffe retop ad odom ni amrofattaipitum otropus li "Ââc ,stuognaH emoc oirporP .tahc oediv ehcna af ,erap ottauq A .odnom li ottut ni ivitta itnetu id inoilim 006 elibiderci nu ereva id eneitsos ehc eralopop etnemasnemmi acitsiggassem id amrofattaip artlaânu "ÂENIL lppa-ni itsiuqca noc sitarG :ozzerP[ENILsppAotnemom otseuq ni ilibinopsid etiutarg diordnA inoizacilppa iroilgm 51.onu onnah es yrrebkcalB NIP orol li odnazzilitu icima eregnigga elbissop ehcna Â.raeW diordnA rep otropus li ehcna e oppur id tahc ,ilacov irtlf noc ehcna otinrof eneiV .otsiuqcaÂ rep elibinopsid asoc acinuâl odnesse sno-dda noc etamaihcoediv e iggassem edulcni ehc e atiutarg "ÂenoizacilppaÂlled etrap roiggam aL .atamaihcoediv id ppa atercsid anu ehcna 'E .odnom li ottut ni itnetu id inoilim 051 id 'Âip atnav ehc eralopop otлом acitsiggassem id oizivres nu "ÂklaToakaK lppa-ni itsiuqca noc otutarg :ozzerP[klaToakaK .atlecs avittac anu l Â non atseuq ,ppa atamaihcoediv anu olos etnemlaiznesse l Âehc asoclauq aredised is es ,aivattuT .ereneg led asoclauq rep eritrap id ovitom otлом "Ââc non ,epykS o stuognaH emoc asoclauq odnasu Âig iats es ,etnemlareneG .ihcoig e tahc oediv ni eraihccobaracs emoc esoc In-App] Tango was one of the first really good video chat applications available on Android. Over the years, it is added to and e that led to a messaging service complete with videos and voice calls. This also has a feature of discovery that allows you to find new people to talk to if you Â ¢ â € œIs are bored or solitaire. There are also a series of group chats that you can enter to talk to people of similar interests. ItÂ ¢ 128; s unique and fun to use. Viber [Price: free with in-app purchases] Originally, Viber was a unique application that was invoiced as a large app to make free calls. Since then it has improved and has been added and, much like tango, it has turned into a complete messaging service complete with voice and video calls. You can also buy Viber Out credits to make calls to non viber users on regular phone numbers if youÂ ¢ â € ™ are looking for a way to do it. It also has the Android Wear support, social media support, and cross-platform support. Wechat support [Price: free with in-app purchases] Last and certainly not least on our list is Wechat. This is another very popular messaging service with over one hundred million facilities so far. It is equipped with the Standard WEÂ ¢ â € ™ stuff I came to be expected from applications on this list, including videos and solid vocal calls together with messages. Wechat also allows you to find new friends using a function based on the location called Friend Radar and is supplied with a desktop application.
